

CUSTOM DESIGN

Create a custom splash page instantly with Splash Access and start capturing data. Splash Access allows you to fully control the look and feel of your captive portal.

SplashAccess is very simple to set up with only two additions on your Cisco Meraki Cloud controller, Simply add our IP to the walled garden and URL into the Meraki Splash set-up page.

If you are looking for a more bespoke design our in-house team can work with you and customise the solution to match your requirements.

100% RESPONSIVE DESIGN

We are responsive web design specialists. SplashAccess is iPad / Tablet, Desktop and Mobile friendly and we aim to look great on all devices.

FREE UPDATES & SUPPORT

QUALITY & QUANTITY

Offering your customers wi-fi has never been easier and Splash Access helps you collect important customer data to ensure you can keep in touch with them.

Splash Access gives **you** the control over the quality of data you collect, all done via the admin panel

Within weeks Splash Access has helped clients to collect 1000's of customer records to use in their marketing campaigns that otherwise would have been lost, and its all your data.

SIMPLY EFFECTIVE

SALES

WI-FI DATA CAPTURE WILL HELP YOUR BUSINESS GROW BY OFFERING A SERVICE TO YOUR CURRENT CUSTOMER BASE INCREASING THE EFFECTIVENESS OF YOUR MARKETING

ADVERTS & VIDEO

Our newest and perhaps most exciting feature is the ability to advertise direct to your customers using Video or Static adverts.

You can set when to show the full screen advert i.e. before they enter their details to login or after, add timers, skip button and more.

Once logged in you can re-direct customers to a specific website or simply let them continue with their web browsing session.

Video & Static adverts on-line

We have added some examples of video & static adverts which are now available to view on-line via our website.

“ I'd highly recommend this cost effective / bullet proof tool to anyone wanting to capture customer data through a Guest WiFi system ”

Robbie Francis, Director, **EPOSability**

MORE THAN STANDARD

We currently offer 5 types of login system for collecting customer data. Our most popular is the standard type which collects email address and name along with custom questions i.e. Age, Postcode which you can configure in the admin panel.

SMS, Paypal and Member systems allow you to switch the system based on your needs and customer base.

We also offer a business solution allowing total control of access onto your wi-fi network via our Guest Ambassador system.

Please call 0845 617 1499 for more details.

SMS

Login using a mobile phone number and enter a code.

PAYPAL

Paid access via the Paypal gateway
